

65364-2 If your business supplies production or service parts to one of the major US auto manufacturers, you must comply with QS 9000. The worksheets and software in The QS 9000 Documentation Toolkit will guide you step by step through developing the complete quality procedures required for ISO 9000 and QS 9000, Level B. The QS 9000 Documentation Toolkit supports the following QS 9000 documents from the Automotive Industry Action Group: *Advanced Product Quality Planning and Control Plan Reference Manual.

*Production Part Approval Process. Developing quality procedures requires you to understand all aspects of your product development system. This book will help you take a team approach to covering all aspects of the process, including responsibilities, production, record keeping, and follow-up. The form of these worksheets facilitates team discussion with questions and checklists that elicit the vital information you need to complete your documentation. Special notes identify the differences between ISO 9000 and QS 9000 in the forms. 23 full worksheets cover such procedures as: *Contract Review. *Design Control. *Process Control. *Production Part Approval. * Non-Conforming Products. *Packaging and Delivery. *Quality Records. *Continuous Improvement. The QS 9000 Documentation Toolkit also provides a straightforward guide to creating conformant quality procedures and submitting them for ISO approval.
